

# Bradford Regional Medical Center

## Save Our Community Hospital

We, the undersigned, call on the board of directors of the Upper Allegheny Health System (UAHS) to cancel its plans to transfer all acute care and surgical services away from Bradford Regional Medical Center.

This proposal would have a devastating impact on our community, further reducing our access to critical health care services, increasing existing transportation problems for many residents seeking care, and cutting valuable jobs.

We call on UAHS and its parent, Kaleida Health, to live up to their commitments to invest in our community and enhance the health care services available to us here in Bradford.
